- Etc.

Our engineers test the spare parts thoroughly in terms of best interaction, perfect fit and easy installation before the products are sourced. In this way, we continuously ensure high quality.

## **Our Product Range - Your Customer Satisfaction**

Most spare part dealers offer only specialized programs. We have decided to have a broad product range to meet the demands of workshops in the best possible way. At HC-CARGO, you can get all products from a single source.

The HC-CARGO product range is broad in many ways.

First, it's broad in function: you'll find all the parts you need to repair vehicles. From spare parts for starters and alternators to the units themselves, A/C compressors, lighting products and many other auto electrical spare parts.

Second, it's broad in application: whether for passenger cars, commercial vehicles, agricultural machinery or marine applications, you'll find the right product. The conventional workshop will find just as much as the big remanufacturer.
